

Safety. Service. Execution.

PGT Services: BUILDING PRODUCTS

With a combination of specializing in flatbed transportation and projects ramping up in the spring, summer, and fall, PGT Services moves an abundance of building products every day.

Experience

Our growth and expertise in flatbed shipping has made us a reliable transportation expert to many high-profile customers across various industry verticals, including major home improvement retailers to commercial building material manufacturers.

With expertise in hauling building products, we have moved over

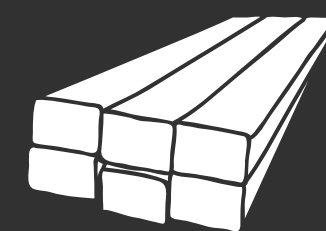

18,000+

building product loads across the US since 2022.

When shipping flatbed, you need industry experts that understand the importance of industry regulations. With over 40 years of history, we have the experience needed to safely handle flatbed shipping, specializing in building products.
