**PGT Services: DRAYAGE**

Here at PGT Services, we have an experienced project logistics team who understands the importance of drayage services. With access to top-tier dray carriers across the country and partners in all major regions, we transport ocean containers to and from ports and rail yards.

**Experience**

We provide our customers a full track and trace lifecycle. As a customer, you won't have to worry about when your shipment arrives, when it's docked, or where it is moving next.

With expertise in drayage services, we have moved over

**3,400+**

containers out of the ports and across the US since 2022.

PGT Services has trusted relationships with dray carriers, key contacts at ports, and specializes in a managed port process. With over 40 years of history, we have the experience needed to handle particular projects and drayage loads, while keeping you informed during the entire process.

**Commodities**

Here is a simplified snapshot of how we move ocean and rail containers in the drayage category!
