

PROJECT LOGISTICS

PROJECT LOGISTICS

Managing Project Logistics may seem daunting to some, but at PGT Services, it's a challenge we embrace with confidence. With a rich history of successfully tackling intricate, large-scale projects, we have consistently delivered solutions that exceed expectations. Our unwavering commitment to prioritizing safety, maintaining pristine service, and handling every aspect of project logistics with care has been the cornerstone of PGT Services.

OUR PROJECT TEAM CAN HANDLE IT!

We understand how important it is to meet the demands of project logistics, while also conducting business safely and within industry standards and regulations. Our project team are trained experts, each with TWIC cards- which makes them able to be boots on the ground at ports if needed. The team is made up of Director of Heavy Haul Operations, Project and Heavy Haul Lead, and Project and Heavy Haul Account Managers.

PGT SERVICES SPECIALIZES IN HANDLING PROJECT LOGISTICS

In addition to standard flatbed transportation services, PGT Services stands out with its unique capabilities that go beyond the conventional offerings. Our specialized flatbed transportation solutions cater to unconventional or oversized freight, ensuring secure and efficient handling of diverse loads. Whether it's the transportation of large machinery, unique structures, or other non-traditional items, PGT Services is equipped with the expertise and equipment to meet the demands of our customers. Our commitment sets us apart, making us the go-to choice for those seeking reliable and customized solutions for shipping needs.
