

DRY VAN CAPABILITIES

DRY VAN EXPERTISE

Leveraging our carrier relationships in our Dry Van network, we have not only the capacity, but also the knowledge of what it takes to manage your truckload shipments. We have a strong network of dedicated capacity, as well as partnerships with customers such as Walmart, Kubota, Home Depot, and Premium Water to name a few.

OVERVIEW

PGT Services has not only the capacity, but also the knowledge of what it takes to manage your truckload shipments. We have strong carrier relationships in our Dry Van Truckload networks. Because of this, we understand the importance of the retail supply chain and how important it is to uphold the integrity of your product by delivering it safely, in full and on time to meet the increasing demand of your customers.

We will provide you with the confidence you need to know we can get the job done. We have expertise in handling loads such as:

- Long-Haul
- Regional
- Dedicated Capacity
- Team/Expedited
- Multi-Stop
- High Volume Cargo

The flexibility and versatility of dry van transportation make it a widely used method for moving goods across various industries. We understand retail supply chains and the importance of timely deliveries and communication.

Machines and Parts

Dry Van trailers are often used to transport building supplies, construction equipment, machinery parts and small household appliances like refrigerators, ovens, and washing machines.

Food and Beverage

Non-perishable food items, canned goods, bottled beverages, and packaged snacks, and water are palletized and transported in a dry van.

Paper Products and Packaging Materials

Products like paper towels, toilet paper, office paper, boxes, containers and other packaging materials.

Consumer Goods & Retail

This includes products like electronics, clothing, appliances, and household items.
